C. By sending an email. D. By visiting www.bgoceanside.org.
18. In which part of a magazine can you find the passage?
A. School Time B. Animal World C. History Space D. Science Study

B

When it comes to doing housework, I'm not always happy.

"OK, you two," I said, "it's time to do our hamster(仓鼠)-cage(笼子) housework."

"Sorry!" said Sally, my little sister. "I was busy making a card for Lily's birthday party."

"Her party is not until Saturday. We'll have much time to make it later." I said. "For now, the hamster, Mr Nibble, needs to live in a clean place."

"Mr Nibble's telling a secret(秘密)," Tex said. He listened carefully. "He wishes he could have a birthday party, but he doesn't know when his birthday is."

I just wanted to get the housework over, but Tex and Sally looked so hopeful that I said, "How about celebrating(庆祝) his birthday today?"

"Hamster party!" Sally and Tex shouted loudly. We could tell Mr Nibble liked the idea. And having our first hamster party to expect made our housework go by in a flash(转瞬间).

Then, we started by making a birthday card for Sally's friend Lily and a small one for Mr Nibble. Next, we used paper to make three party hats for ourselves and a small hat for Mr Nibble. We found some safe food for hamsters and we made the cutest little cake. At last, we were ready to celebrate. Mr Nibble looked really happy when we showed him the hat and the card. He danced happily when we sang "Happy Birthday to You". And he loved his cake so much that he ate them all at once.

So, my advice for doing housework could be summed up(总结) by that old saying: When life gives you lemons, make lemonade.

19. What was Tex doing when the writer asked him to do housework?

- A. He was making a card for Lily.
- B. He was telling a secret to Mr Nibble.
- C. He was listening carefully to Mr Nibble.
- D. He was cleaning the place for the hamster.

20. How did the writer make Sally and Ted agree to do housework?

- A. He told them about Mr Nibble's secrets.
- B. He advised to celebrate Mr Nibble's birthday.
- C. He promised to have a birthday party for them.
- D. He offered to help them make the birthday card.

21. Which is the RIGHT order of the following events?

- | | |
|----------------------------------|-------------------------------------|
| ① They sang a song. | ② They made some party hats. |
| ③ They made some birthday cards. | ④ They made a cake for the hamster. |
| A. ②①④③ | B. ③②④① |
| C. ③②①④ | D. ④②①③ |

22. What can we learn from the passage?

- | | |
|----------------------------------|-----------------------------------|
| A. Practice makes perfect. | B. Well begun is half done. |
| C. Take life as it comes at you. | D. Two heads are better than one. |

C

Do you like sports? Do you have a favourite sports player? Are you interested in what sports players wear? In fact, a lot of sports fans pay a lot of attention to the clothes that sports players wear. But it is surprising to learn how much technology goes into the sports players' clothes.

Do you wear sunglasses when you go outside? Many sports players like wearing sunglasses for outdoor exercise. In fact, these sunglasses are really smart(智能的). They do much more than keep out the sunlight. They show information on their glasses. For example, sports players wearing smart glasses can watch a map while they are running. This way, they won't be lost. They can also see how fast they are running on the glasses.

There are also different kinds of sports clothing that use technology. For example, smart sports trousers have sensors(传感器). They tell you when your action isn't quite right. Many players wear special sleeping clothes and they help them sleep better. When the people who wear them wake up, they feel really relaxed.

Another cool example is the smart running shoes. These shoes have small smart pieces and sensors in them. When you are running, the sensors can find out if your running way is right or not. And it can give you advice right away through an app on your phone. Also, it can keep a record of how far you run, how fast you run and how many calories(卡路里) you burn each time you run. This helps you carry out your exercise plan better.

These technologies have great uses. I'm sure they will be used more often in the near future and make our life better.

23. Why does the writer ask three questions at the beginning of this passage?
- A. To invite some readers to answer them.
 - B. To make readers interested in the passage.
 - C. To give some information on sports clothes.
 - D. To ask for ideas about wearing smart clothes.
24. What does the underlined word "they" in Paragraph 2 refer to?
- A. Football fans.
 - B. Sports players.
 - C. Beach sunglasses.
 - D. World maps.
25. According to the passage, which of the following is TRUE?
- A. Smart sunglasses can show information on their glasses.
 - B. The smart sports trousers and the sunglasses have sensors.
 - C. Sports fans are interested in the technology in sports players' clothes.
 - D. The small pieces in the shoes can find out if your running way is right or not.
26. What does the writer think of these clothes with technology?
- A. He doesn't think they are helpful.
 - B. He believes more people will use them.
 - C. He doesn't have any ideas about them.
 - D. He thinks they're bad for the environment.

D

①What would be the best day to celebrate the number pi? If you say March 14th, you're right! It matches the first three numbers of pi—3.14. Every year, math and science lovers come together on this day to celebrate Pi Day. In 2019, the United Nations Educational, Scientific and Cultural Organization set the day as the International Day of Mathematics, in order to celebrate the beauty and importance of math.

②Pi Day in China honours(纪念) the Chinese mathematician Zu Chongzhi(429-500 AD). He calculated(计算) pi as being between 3.1415926 and 3.1415927. It stood as the most correct calculation of pi for over 800 years.

③In 1988, US physicist Larry Shaw, who worked at San Francisco's Exploratorium, started the Pi Day celebration. During the first event, workers in Exploratorium walked around a circular(圆形的) space because pi helps us know about the calculations of circles.

④Now, __▲__. To start with, students in the US usually eat pie. Fukuoka High School in Japan celebrates Pi Day with pi memorization(记忆) competitions. "We remember as many numbers of pi as we can. It shows our memory skills." said Ai Akasaki, 16, from the school. "In Germany, the celebration of Pi Day takes on a cultural twist(转折)," said Johanna Elisabeth Senst, a 15-year-old German girl. Schools encourage students to spend the day through works of art about pi, like paintings.

⑤The celebration of Pi Day started a culture around pi and made people enjoy math through these celebrations.

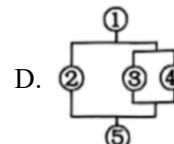

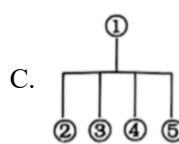

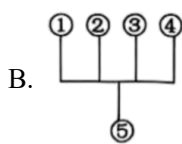

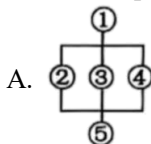

27. What is Pi Day in China for?

- | | |
|--------------------------------------|--------------------------------|
| A. To show its importance. | B. To remember Zu Chongzhi. |
| C. To match its first three numbers. | D. To improve people's memory. |

28. Which sentence can be put into the " __▲__ " in Paragraph 4?

- A. Students in the US can not only use pi, but also eat pie
- B. People celebrate Pi Day with memory skills competitions
- C. Scientists celebrate Pi Day in a special way around the world
- D. People celebrate Pi Day in many different ways in the world

29. How is the passage organised(组织)?

30. What's the best title for this passage?

- | | |
|-----------------------|------------------------------|
| A. Using Important Pi | B. Enjoying interesting Math |
| C. Honouring Magic Pi | D. Remembering Famous People |

第二节 任务型阅读 (共 5 小题, 每小题 2 分, 满分 10 分)

阅读下面材料, 从文后所给的 A—E 五个选项中选择正确的选项 (其中一项是多余选项), 将其序号填入第 31 至第 34 小题, 并回答第 35 小题。
