In the gardening class, teachers teach students different kinds of vegetables and how to grow(种) them. Then students work in groups.

② \_\_\_\_\_ Why? Because they can have much fun in this class. They don't have to sit at their desks in the classroom all day. They can get out, get their hands dirty, do things with their own(自己的) hands and relax.

It's always interesting for them to get a carrot or a tomato, wash it and eat it right in the garden. In some schools, students like to grow flowers(花). When it's spring, all the flowers come out and they're really beautiful. Students like to walk and talk in the beauty. That's their favorite thing to do after busy hours of work.

④ Only fun from the classes? Of course not. Students can learn something, too. Keeping a school garden is difficult and all the students in the group need to come and help.
