Are you getting tired of seeing the similar places on the ground? Why not try a hot air balloon flight(飞行)? Fly high and enjoy amazing sights from the sky. Here's something you need to know.

All ages are welcome, but kids under 12 must fly with an adult(成年人). You should be fit enough to climb in and out of the balloon basket by yourself.

Weather is important for a successful flight. We need light winds and a clear, rain-free sky. If it's too cloudy, we'll change the flight time.

Our flights happen right after sunrise or before sunset. The flying season is from March to October. Don't miss it because we don't fly in winter!

It's much colder in the sky, so wear warm sweaters and jackets. And remember to put on your boots—you may walk in wet fields for a while after landing(着陆).

The wind decides where the balloon goes! But our pilots(飞行员) will find a safe place to land. It might be 5 to 30 km away from the starting point. But don't worry. We'll send a bus to pick you up. You won't have to walk all the way back!

Ready for this exciting flight? Call us or visit our website to book now!

“Okay, class, welcome back,” began Ms Sneed.

All the students smiled at her. Everyone sat straight up.

“Today, we’ll create our classroom rules,” she went on. Some kids’ smiles faded(逐渐消失).

A few students felt worried.

“First, let’s think about what helps us learn best,” Ms Sneed said, writing ‘Learning is No.1.’ on the blackboard. “I’ll take notes when you discuss it.”

“I need to focus,” said a boy in the second row. “Yeah, the classroom should be quiet,” said his neighbour. “And we shouldn’t move around too much,” A girl in the back said. A quiet kid in the front corner raised his hand and said, “Last year, someone in my class bullied(霸凌) me. When I worried about that, I couldn’t focus.”

Ms Sneed nodded. “That brings up a good point. Even though learning is number one, safety is even more important. If you aren’t safe—or even if you don’t feel safe—you can’t learn.”

“What other things stop you from learning?”

“Well, if people are touching(触碰) my things—or they are touching me—I can’t learn,” said another boy in the third row.

“Good point. People need to be respectful,” said Ms Sneed.

A small girl quickly looked up. “I don’t like it if someone laughs at my ideas.”

“Okay, these are some great points,” said their teacher. “Let’s see what rules we have so far. Everyone needs to be safe, respected, and stay focused.”

Many heads nodded in agreement with the teacher’s summary.
